

Laser 3000™ Battery Installation

Please note, the **correct** way to install batteries in the Laser 3000.

2 batteries -ve up

2 batteries +ve up

Failure to install the batteries correctly can result in damage to the unit.

Storage Information: If the Laser 3000 is not going to be used for sometime it is highly recommended that the batteries be removed from the unit. This will significantly increase the lifetime of the battery.

If you have any questions, please contact LasereX on sales@laser3000.net
